Human Rights in the Age of Austerity: “Making Rights Real at Community Level”

Although the Human Rights arena has featured far-reaching alliances, solidarity and transformative movements of global impact, the struggle still continues to ensure local human rights issues are not ignored in our communities and cities.

Does this age of austerity threaten human rights? How can human rights be made real on our streets, communities and towns in this present economic situation?

Expert national and local speakers will come together to discuss and debate these key issues.

Register now to take part in this conference which also includes rich interactive workshops and debates at www.ljmu.ac.uk/conferences/humanrightsnetwork

Venue: **St George’s Hall, Liverpool**
